

The Glory of Maternity.

Now, it left alone, will care for itself, this might have been true at some pre-natal time, but since for ages it has not been left alone, but has been bound down and fettered by the obsessions and manipulations of society, it can no longer care for itself.

At no time does the truth of this appeal to us more strongly than at that period of a woman's life when she is about to become a mother.

Now, must be avoided at this crisis, and for this very contingency

MOTHER'S FRIEND

has been devised that the muscles and tissues imprisoned and weakened as they have been by the stress of our higher civilization, may fulfill without undue suffering and possibly leading harm, the functions for which the Creator intended them.

Mother's Friend by its kindly offices soothes and relaxes these parts and enables the mother to be, to pass through the parturient period and actual crisis with practically no suffering to herself and an easy delivery of her offspring.

It is applied externally as a massage, and is a non-irritating, soothing, and most efficacious liniment. \$1.00. All druggists. Our book "Motherhood" sent free on request.

ROOSEVELT'S MESSAGE TO CONGRESS

(Continued from Fifth Page)

of naturalizations pending and accomplished.

Second.—Uniformity of naturalization certificates, fees to be charged, and procedure.

Third.—More exacting qualifications for citizenship.

Fourth.—The preliminary declaration of intention to be abolished and no alien to be naturalized until at least ninety days after the filing of his petition.

Fifth.—Jurisdiction to naturalize aliens to be confined to United States district courts and to such state courts as have jurisdiction in civil actions in which the amount in controversy is unlimited; in cities of over 100,000 inhabitants the United States district courts to have exclusive jurisdiction in the naturalization of the alien residents of such cities.

Criminal Laws. In my last message I asked the attention of the congress to the urgent need of action to make our criminal law more effective, and I most earnestly request that you pay heed to the report of the attorney general on this subject.

There seems to be no statute of the United States which provides for the punishment of a United States attorney or other officer of the government who corruptly agrees to wrongfully do or wrongfully refrain from doing any act when the consideration for such corrupt agreement is other than one possessing money value. This ought to be remedied by appropriate legislation. Legislation should also be enacted to cover explicitly, unequivocally and beyond question breach of trust in the shape of prematurely divulging official secrets by an officer or employee of the United States and to provide a suitable penalty therefor.

Merchant Marine. To the spread of our trade in peace and the defense of our flag in war a great and prosperous merchant marine is indispensable. We should have ships of our own and seamen of our own to convey our goods to neutral markets and in case of need to re-enforce our battle line. It cannot but be a source of regret and uneasiness to us that the lines of communication with our sister republics of South America should be chiefly under foreign control. It is not a good thing that American merchants and manufacturers should have to send their goods and letters to South America via Europe if they wish security and dispatch. Even on the Pacific, where our ships have held their own better than on the Atlantic, our merchant flag is now threatened through the liberal aid bestowed by other governments on their own steam lines. I ask your earnest consideration of the report with which the merchant marine commission has followed its long and careful inquiry.

It is a matter of unmix satisfaction once more to call attention to the excellent work of the pension bureau, for the veterans of the civil war have a greater claim upon us than any other class of our citizens. To them first of all among our people honor is due.

Immigration. As I said in my last message to the congress, we cannot have too much immigration of the right sort, and we should have none whatever of the wrong sort.

The questions arising in connection with Chinese immigration stand by themselves. The conditions in China are such that the entire Chinese coolie class—that is, the class of Chinese laborers, skilled and unskilled—legitimately come under the head of undesirable immigrants to this country. But in the effort to carry out the policy of excluding Chinese laborers, Chinese coolies, grave injustice and wrong have been done by this nation to the people of China and therefore ultimately to this nation itself. Chinese students, business and professional men of all kinds, not only merchants, but bankers, doctors, manufacturers, professors, travelers and the like, should be encouraged to come here and treated on precisely the same footing that we treat students, business men, travelers and the like of other nations.

As a people we have talked much of the open door in China, and we expect, and quite rightly intend to insist upon, justice being shown us by the Chinese. But we cannot expect to receive equity unless we do equity.

The Civil Service.

Heads of executive departments and members of the commission have called my attention to the fact that the rule requiring a filing of charges and three days' notice before an employee could be separated from the service for inefficiency has served no good purpose whatever. Experience has shown that the rule is wholly ineffective to save any man if a superior for improper reasons wishes to remove him and is mischievous because it sometimes serves to keep in the service incompetent men not guilty of specific wrongdoing. Having these facts in view, the rule has been amended by providing that where the inefficiency or incapacity comes within the personal knowledge of the head of a department the removal may be made without notice, the reasons therefor being filed and made a record of the department. The absolute right of removal rests where it always has rested, with the

Philippines and Other Islands. During the last year the Philippine Islands have been slowly recovering from the series of disasters which since American occupation have greatly reduced the amount of agricultural production below what was produced in Spanish times.

The agricultural conditions of the islands enforce more strongly than ever the argument in favor of reducing the tariff on the products of the Philippine Islands entering the United States. I earnestly recommend that the tariff now imposed by the Dingley bill upon the products of the Philippine Islands be entirely removed, except the tariff on sugar and tobacco, and that that tariff be reduced to 25 per cent of the present rates under the Dingley act; that after July 1, 1909, the tariff upon tobacco and sugar produced in the Philippine Islands be entirely removed and that free trade between the islands and the United States in the products of each country then be provided for by law.

In my judgment, immediate steps should be taken for the fortification of Hawaii. This is the most important point in the Pacific to fortify in order to conserve the interests of this country. It would be hard to overstate the importance of this need. Hawaii is too heavily taxed. Laws should be enacted setting aside for a period of, say, twenty years 75 per cent of the internal revenue and customs receipts from Hawaii as a special fund to be expended in the islands.

I earnestly advocate the adoption of legislation which will explicitly confer American citizenship on all citizens of Porto Rico.

I wish also to call the attention of the congress to one question which affects our insular possessions generally

"Sowing the Wind."

In "Sowing the Wind," Sydney Brundy's thrilling drama which comes on one night to Pensacola, Thursday night, Miss Suzanne Santje is said to have a very congenial role in Rosamond, the heroine, and one that suits her perfectly.

She will be supported by Edward R. Lawson and a capable company of players, especially selected by Manager Al. S. Roth, and the play will be produced with careful attention to every detail. Miss Santje's Rosamond is said to be an exquisite creation. She rises to all the requirements of the strong climaxes of the play and gives an interpretation of the difficult character worthy of the greatest commendation. Miss Santje's role in "Diplomacy" is well remembered by our theatre goers, in which characterization she furnished evidences of great ability.

The public will watch with pleasure her inevitable rise to the top of the ladder of success.

Shepard's Moving Pictures.

The coming engagement of Archie L. Shepard's Moving Picture Exhibition, announced for Saturday here will be welcomed with delight by all lovers of novel entertainment. An entirely new and unique program will be offered, made up of pictures of travel through historical portions of the world, intense dramatic playlets, extremely funny comedy productions, and startling fantastical creations, altogether making one of the most interesting and amusing moving picture programs ever presented to an appreciative public. Special attention is given to the mechanical effects, and the reproduction of sounds, etc., during the action of the pictures has been reduced to such a science that the scene that passes before our eyes become almost actualities.

Paul Gilmore. The Norfolk Dispatch of November 18, refers to Paul Gilmore, who will be in Pensacola next Monday in the following complimentary manner:

Paul Gilmore and a capable company presented "Captain Debonnaire" to an audience of fair proportions at the Academy of Music last night. Mr. Gilmore appears before the people of Norfolk with the largest company ever seen in his support, which acts as a fine setting for his clever work. Miss Pettes, his leading lady, is an actress of known merit, having successfully played the leads for many seasons with Laurence D'Orsay in "The Earl of Pawtucket."

The bill is of a light romantic nature in five acts and gives Mr. Gilmore an opportunity to present himself in his most suggestive character: that of a romantic dandy, a swashbuckler. That he is a prime favorite in this city was shown by the applause to which Mr. Gilmore responded in a few well chosen words.

Cured Paralysis. W. F. Bally, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment. I have also used it for old sores, frostbites and skin eruptions. It does the work." Sold by all druggists.

I earnestly ask that Alaska be given an elective delegate.

Admission to Statehood. I recommend that Indian Territory and Oklahoma be admitted as one state and that New Mexico and Arizona be admitted as one state.

The Panama Canal. Active work in canal construction, mainly preparatory, has been in progress for less than a year and a half. During that period two points about the canal have ceased to be open to debate. First, the question of route; second, the question of feasibility. The point which remains unsettled is whether the canal shall be one of several locks above sea level or at sea level with a single tide lock. On this point I hope to lay before the congress at an early day the findings of the advisory board of American and European engineers.

In addition to sanitating the isthmus, satisfactory quarters are being provided for employees and an adequate system of supplying them with wholesome food at reasonable prices has been created. Hospitals have been established and equipped that are without superiors of their kind anywhere. During the past year a large portion of the plant with which the work is to be done has been ordered. It is confidently believed that by the middle of the approaching year a sufficient proportion of this plant will have been installed to enable us to resume the work of excavation on a large scale.

What is needed now and without delay is an appropriation by the congress to meet the current and accruing expenses of the commission. The first appropriation of \$10,000,000 out of the \$135,000,000 authorized by the Spooner act was made three years ago. It is nearly exhausted. Unless the congress shall appropriate before that time all work must cease.

[In conclusion the president recommends an increase in the diplomatic and consular service and more adequate compensation of its members.]

Rev. H. E. O'Grady Talks.

Editor Anniston Evening Star:

Father H. E. O'Grady, the well known missionary priest who is at present the guest of Father Doyle, at the rectory, was seen last evening by a reporter of the Evening Star in reference to the wonderful

Long Life Liver and Kidney Cure

of which he discovered the formula of Father O'Grady gave him a history of the remedy and all the good that had been done by it.

And as the reporter was about to leave Father O'Grady said I wish you would tell the mothers in Anniston and for miles around Anniston to keep a bottle of this great remedy in their homes and to give it to their children when in need of a gentle Laxative and Liver Medicine. There is nothing like it to build up a run down system.

Rev. H. E. O'Grady is too well known to need an introduction here, being a Missionary Priest of national reputation and a brother of Ex-Senator O'Grady, of New York.
